Docket TOO-0033  
Euclid Avenue  
Mount Prospect, IL  
Wisconsin Central Ltd.  
Grade crossing warning devices  
CM 26.32 / 689 681 K

This letter is the 6-month progress report that is required by this order.

The project is funded by Metra and the contract was put out for bid and A.M. Signal Systems Ltd was the successful bidder for the signal portion of this project.

The plans are nearly ready for submission with a form 3 and will be submitted as soon as Metra and the WCL approve them.

Some field work has started this includes cable and foundation installation and wiring the control houses.

This project is part of the double tracking project From the existing Wheeling South end of siding location to the new Des Plaines South end of siding location.

Grading for the second track has been started and is on schedule.

We anticipate this project to be completed on schedule by 9/30/01.

If you have any further questions or need additional information feel free to contact me at 715-345-2521 or [jepalach@wclx.com](mailto:jepalach@wclx.com).

Sincerely,

Jack E. Palach  
Engineer C&S
